

The association may want to look again to see if there is interest in splitting this division into a competitive side and a recreational side for next season by having registrants indicate their preferred level on the registration form.

There were only a few issues with this division related to players playing at a very competitive level, and this taking things out on their competitors, and/or the comments being said to our officials. These were dealt with very quickly so that perspective was put back on the goal of the league which is to play with honour and respect for all.

East-West

It was a snow and ice filled day, but the games still went on for the annual WFRA East/West Challenge. After shovelling their way out of driveways and parking lots, nearly all players, parents, coaches and officials made their way out to play in, and cheer for their respective sides in each of four ringette games at Pete Palangio arena tonight.

The results were tabulated, and here is how the games finished;

Game #1: U10

West 8 – East 7 (West earned 2 points and +1)

Game #2: U12

West 9 – East 6 (West earned 2 points and +3)

Game #3: U16

East 4 – West 3 (East earned 2 points and +1)

Game #4: U19/Open

East 8 – West 5 (East earned 2 points and +3)

So, the stage was set for a two-shooter shootout to decide the winning side. After the first shooters from each squad were turned away, it came down to single shots. The West shot just missed the top corner, and the final East shot was successful, wrapping it up, and sealing the come from behind win for the East side!

Congratulations to all players, coaches, parents and officials on a fun evening.

Your 2018 WFRA East/West winning side was Team East!
